

# ROLLER'S Fox ANC / VE / SR

German Top Quality

**ANC**

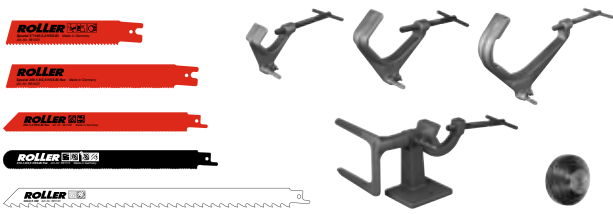

3,0 kg 1050 W

**VE**

3,0 kg 1050 W

**SR**

3,1 kg 1400 W

**Powerful, robust, compact electric pipe saw ideal for steel pipes and others up to Ø 6", 160 mm, as well as for many materials such as wood, wood with nails, pallets, metal, also stainless steel, cast iron, cellular concrete, pumice, tiles, bricks, ceramics, fibre cement, plastics.**

- For right-angled, fast sawing up to 6", with ROLLER'S guide holder and extra thick, rigid, unbendable ROLLER'S special saw blade.
- Unique guide holder with 5-fold force transmitting leverage for 400 % more sawing power for fast, effortless, right-angled sawing. Easy and safe to operate. Ideal for assembly and disassembly.
- ROLLER'S special saw blades - absolutely essential for right-angled sawing with guide holder. Extra thick, rigid and unbendable.
- Also for free-hand sawing.
- Slim form, small dimensions, comfortable weight, only 3.0 kg (ROLLER'S Fox ANC SR only 3.1 kg). For easy working without fatigue.
- Very robust oscillator drive creates simultaneous sawing and orbital stroke. All-round needle-bearing crank drive (ANC) reduces friction, heating and wear. Therefore long life even under extreme load.
- Gear protected against water and dust by special, high-sliding silicone seal.
- Aggressive orbital stroke for fast, powerful saw feed, excellent chip discharge and long life of saw blades. Fixed setting, precision needle bearing for continuously powerful sawing performance. Specially developed for extreme loads, e.g. for sawing steel pipe.
- Stable, right-angled, solid lifting rod of special steel, precision needle bearing, guide all sides for straight, torsion-free cutting. Especially under extreme load, e.g. when using a force-transmitting guide holder. Drive rod runs in an enclosed housing for safe work.
- Powerful saw feed when sawing free hand due to ergonomically designed housing handle and non-slip, heat-insulated, soft grip protective sheath.
- Universal saw blade holder. All saw blades – with one-sided and two-sided hinge – see page 27–28, can be clamped without changing or without moving the saw blade pressure piece.
- Spiral clamping pin integrated into the pressure piece - easy changeable.
- **ROLLER'S Fox ANC**  
Ideal number of strokes! Consciously fixed number of strokes (2400 rpm). No electronics! Thus automatically optimal cutting speed and least possible wear on saw blade, motor and gear. Proven, powerful 1~ universal motor 230 V, 50–60 Hz, 1050 W, with thermal overload protection.
- **ROLLER'S Fox ANC VE**  
Vario-Electronic! Continuously adjustable number of strokes (0 to 2400 rpm) for simple sawing start and material-compatible free hand sawing. Proven, powerful 1~ universal motor 230 V, 50–60 Hz, 1050 W.
- **ROLLER'S Fox ANC SR**  
Speed-Regulation! Number of strokes continuously adjustable on the setting wheel (700 to 2200 rpm). The preselected number of strokes remains constant even under extreme load. With soft start, tachogenerator, temperature monitoring and locking protection. For material-compatible sawing. Ideal for steel pipes, die-cast pipes and sawing boilers, tanks etc. Proven, powerful 1~ universal motor 230 V, 50–60 Hz, 1400 W.

Scope of Delivery Art.-No.

<b>ROLLER'S Fox ANC Set</b>	
Drive unit, guide holder 2", 2 ROLLER'S special saw blades 2"/140-3.2, allen key, in steel case	560020
<b>ROLLER'S Fox ANC VE Set</b>	
Drive unit with Vario-Electronic, guide holder 2", 2 ROLLER'S special saw blades 2"/140-3.2, allen key, in steel case	560027
<b>ROLLER'S Fox ANC SR Set</b>	
Drive unit with Speed-Regulation, guide holder 2", 2 ROLLER'S special saw blades 2"/140-3.2, allen key, in steel case	560026

Accessories

<b>ROLLER'S Fox ANC drive unit</b>	560000
<b>ROLLER'S Fox ANC VE drive unit</b>	560008
<b>ROLLER'S Fox ANC SR drive unit</b>	560001
<b>ROLLER'S special saw blades / saw blades</b> see page 27–28	
<b>Guide holder 2"</b> , for Ø 1/8–2" pipes	563000
<b>Guide holder 4"</b> , for Ø 2 1/2–4" pipes	563100
<b>Guide holder 6"</b> , for Ø 5–6" pipes	563200
<b>Double holder</b> for right-angled sawing with ROLLER'S Fox and thread cutting with ROLLER'S King	543100
<b>Protective cap</b> for ROLLER'S guide holder, for gentle clamping of thin-walled materials	563008
<b>Steel case</b>	566051
