

# ROLLER'S Akku-Picco P 40

## Ultra handy, ultra light, powerful cordless pipe shears for plastic and composite tubes up to Ø 40 mm, wall thickness up to 6.7 mm.

- For effortless, fast cutting of plastic and composite tubes, e.g. composite tube Ø 20 mm in only 4 s.
- Universal for plastic and composite tubes by specially hardened conical blade. Also ideal for thick-walled pipes of PP and pipes of PVC. For chipless cutting, therefore no chips in the pipe system.
- Very small, compact design with perfect weight distribution for real one-hand operation. Comfortable weight, drive unit with battery only 1.2 kg and ergonomically designed handle for energy-saving, fatigue-free work.
- Ultra light drive unit for working in very confined spaces.
- Exact pipe rest and blade guided both sides for right-angled, burr-free cut.
- Effective working by automatic switching off after the cutting process and fast resetting of the blade. Saves time and money.
- Specially hardened, conical blade for long life. Exchangeable blade.
- Strong housing of glass fibre-reinforced polyamide with steel inlay and robust, maintenance-free gear for long life.
- Powerful battery motor 9.6 V, 70 W output, with safety switch and on/off switch.
- Integrated NiMH battery 9.6 V, 1.0 Ah capacity, for many cuts. Low weight. High energy density for up to 200 cuts. NiMH 100–240 V, 50–60 Hz, 6 W charger, for short charging time. Pulse charging technique reduces memory effect for maximum battery performance.

Scope of Delivery Art.-No.

**ROLLER'S Akku-Picco P 40 set**  
 Drive unit with integrated battery NiMH 9.6 V, 1.0 Ah, NiMH charger, conical blade, in box 291310
